

The Bluestream Group

The Bluestream Group is an internationally-operating project organisation with offices in Den Helder and the United Kingdom.

Bluestream Subsea B.V. undertakes subsea activities for subsea civil engineering and the offshore industry, by using modern diving equipment and ROVs (Remote Operated Vehicles).

Bluestream Access B.V. carries out inspection, repair and maintenance work at high levels and/or inaccessible locations, using Rope Access climbing techniques.

Bluestream Holding BV carries out all necessary general and technical services for our operating companies.

As a result of remarkable growth within our organisation, we are looking for a:

PROPOSAL ENGINEER m/f **(Fulltime)**

Scope of activities:

- You will assist with the preparation of tenders for offshore construction projects;
- You will be supporting all aspects of the technical tender design;
- Bid preparation and tender documentation covering all aspects required to meet the international market;
- You will assist with the contract negotiation together with your team members;
- You will travel from time to time to visit our (potential)clients and do negotiating;
- As a part of the team you will generate program schedules.

Your talents:

- Bachelor or University degree with Commercial or Economical background;
- At least 3 years of relevant working experience;
- Good command of the English language, spoken and written;
- Have an understanding of commercial matters;
- Have an ability to work independent and as a team player;
- Flexibility in working time and tasks;
- Experience in the offshore industry is desirable.

We offer:

You will be a part of our enthusiastic team. The Bluestream Group features an 'open door culture', informal short communication lines and a good working atmosphere. The terms of employment are excellent and you will have the opportunity to develop your career.

Are you willing to take up this challenge?

Send your letter of application and CV, within 2 weeks to:
